Introduction

1. Purpose of the RFA Process

- 1.1 All telecommunications licences issued by the Pakistan Telecommunications Authority (“PTA”) subsequent to the De-Regulation Policy 2003 and the Mobile Cellular Policy 2004 provide for contribution by licensees to a Universal Service Fund (“USF”).
- 1.2 The purpose of this Request for Applications (“RFA”) is to invite holders of such licences (“USF Contributors”) to submit Proposals, either individually or as part of a consortium, for providing voice telephony and Internet services, including access networks and public access points (“USF Services”), to defined regional areas (“USF Areas”) in Pakistan pursuant to a 10 year USF Services and Subsidy Agreement.
- 1.3 This RFA is part of a universal service program initiated by the Government of Pakistan (“GoP”), which is aimed at increasing access to telecommunications networks and services in unserved and under-served areas of Pakistan in a manner consistent with fair competition, international best practices, and existing sector policies and GoP commitments.
- 1.4 GoP has created a not-for-profit federal Government owned and controlled Universal Service Fund company (“USFCo”) to administer the USF, including the process initiated by this RFA (“RFA Process”). It is GoP’s intent that USFCo apply part of the USF toward payment of subsidy (the “USF Subsidy”) to be paid pursuant to the USF Services and Subsidy Agreement to assist in meeting the costs of constructing and operating the USF Network in the USF Areas.
- 1.5 Further information on the proposed USF Services, USF Network and USF Areas is set out in this RFA.
- 1.6 It is the intention of GoP to act quickly to implement its policy of extending access to telecommunications networks and services in unserved and under-served areas in Pakistan.

2. Source of Funds

- 2.1 Pursuant to Section 33A of the Act, the sources of funding USF shall consist of
 - (a) grants made by the Federal Government and the Provincial Governments;
 - (b) prescribed contribution by licensees;
 - (c) sale proceeds from the auction of the right to use radio spectrum;
 - (d) loans obtained from the Federal Government; and
 - (e) grants and endowments received from other agencies.

- 2.2 The GoP (the “Borrower”) has applied for a loan (hereinafter called the “Loan”) from the International Bank for Reconstruction and Development or from the International Development Association (hereinafter called “the Bank”) toward the cost of the Rural Telecommunications and e-Services Project, and the Borrower intends to apply a part of the proceeds of the Loan to eligible payments under the Contract for which these bidding documents are issued.
- 2.3 Payments by the Bank under the Loan will be made only at the request of GoP and upon approval by the Bank in accordance with the terms and conditions of the Loan Agreement, and will be subject in all respects to the terms and conditions of the Loan Agreement. The Loan Agreement prohibits a withdrawal from the Loan account for the purpose of any payment to persons or entities, or for any import of equipment, plant, or materials, if such payment or import, to the knowledge of the Bank, is prohibited by a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations. No party other than the GoP shall derive any rights from the Loan Agreement or have any claim to the Loan proceeds.

3. Current Legal, Regulatory, and Market Regime

- 3.1 Before 1996, Pakistan’s telecommunications markets were governed by the Telegraph Act, 1885 and Wireless Telegraphy Act, 1993. Most telecommunications services were provided by the GoP’s Telegraph and Telephone Department. That Department was converted into a statutory corporation in 1990 as the Pakistan Telecommunication Corporation (“PTC”) and later in 1996 it was converted into a public limited company Pakistan Telecommunication Company Limited (“PTCL”). Competitive mobile telephone service was launched in 1991. Payphoneservice was launched in 1993. But of these competitors, only PTC and then PTCL had a formal duty to serve cities, towns, villages and Muzas in all areas of Pakistan.
- 3.2 Additional mobile, Wireless Local Loop (WLL), fixed-line Local Loop (“LL”) and Long Distance International (“LDI”) licensing since 2004 has increased competition substantially. Use of telecommunications services has expanded rapidly in this increasingly competitive environment.
- 3.3The Mobile Cellular Policy (2004) and Pakistan Telecommunications (Re-organisation) (Amendment) Act, 2006 require that PTCL and all mobile licensees provide significant geographic coverage. Yet, in rural areas, teledensity is significantly lower than teledensity in urban areas. Making telecommunications services available country-wide is a GoP priority.
- 3.4 In a competitive sector, it is not appropriate to impose universal service obligations on a single operator. Accordingly, the De-Regulation Policy (2003) at section 5, the Mobile Cellular Policy (2004) at section 8, and the Pakistan Telecommunications (Re-organisation) Act, 1996 at section 33A require that PTCL and all subsequent fixed and mobile licensees pay into the USF.
- 3.5 Persons who enter into a USF Services and Subsidy Agreement as a result of the RFA Process (“USF Service Providers”) will receive a subsidy payment from the USF to extend telecom services by using Renewable Energy Solutions as a source of power, to rural areas, increasing rural teledensity. The amount of the USF subsidy payment

will be established in accordance sections 12 and 43 of this RFA. The subsidy payment will be made in one or more instalments in accordance with the USF Services and Subsidy Agreement.

3.6 Initially USFCo was not encouraging Opex Subsidy but now the RTeS Program is getting into remotest parts of the under-served and un-served areas and the experience of “no-bids”, in the auction of these Lots, makes it evident that if no additional support is given for Opex, providing USF Services in those remote areas would not be possible,. In betweenUSFCo allowed Opex Subsidy for Backhauling and mandated Alternate Energy solutions but now it is clear that without additional support for Opex, USF objectives of providing rural telecom coverage to the remote areas would not be met.

Therefore, in addition to the USF Capex Subsidy, USF shall also provide subsidy as partial support for Opex by way of providing “USF Opex Subsidy” for operating USF Networks, for a maximum period of upto three yearson a “declining model” basis (see 3.8 below). USF Opex Subsidy shall be payable on regular periodical basis starting from completion of each of the milestones as mentioned in Schedule D of USF Services and Subsidy Agreement.

3.7 The definition of USF Opex Subsidy, provided in this RFA, is only for guidance of the Applicants submitting Financial Proposals. USF will only be looking for the lowest bidder overall (Capex Subsidy + Opex Subsidy), and not breakup of USF OPEX Subsidy demanded.

3.8 All Applicants shall mention a lumpsum amount of Opex for three years (separately from the usual Capex Subsidy) in their Financial Proposal in appropriate field.This amount shall be equally split over three years to show “YearlyOpex” of the Applicant. Then the Applicant in adjacent column shall mention the “Yearly Opex Subsidy” for each of the three years making sure that for first year the asked subsidy amount cannot exceed 75% of the “Yearly Opex”, for second year the asked subsidy amount cannot exceed 50%, and for third year the asked subsidy amount cannot exceed 25% (See Annex 1: USF Subsidy Proposal Form with this RFA for elaboration).

3.9 The Yearly OpexSubsidy for each of the year one, two and three shall be paid in equal 16 quarterly installments. The quarterly Installments shall start immediately after completion of each of the Milestones, in the following manner:

- (a) After completion of 1stMilestone and issuance of Project Implementation Milestone Certification, USF Service Provider shall start getting the 04out of 16 equal quarterly installments of 1styearOpex Subsidy.Then he will get next 04 out of 16 equal quarterly installments of 2ndyearOpex Subsidy.And after that he will get 04 out of 16 equal quarterly installments of the 3rdyearOpex Subsidy. Thus over a period of three years (or 36 months) he will get 12 quarterly installments.
- (b) Same process of payment of Opex Subsidy shall be repeated for each subsequent milestone so that by the end of 3rd year (counted from the Implementation Milestone Certification of the 4th Milestone),he gets 48 installments covering entire amount of Opex Subsidy.

4. USF Policy

- 4.1 The Universal Service Fund Policy (“USF Policy”) is the policy framework guiding the RFA Process. It sets out goals, objectives, and guidelines for using USF funding to meet certain basic telecommunication and ICT services needs in areas of Pakistan which would otherwise remain unserved.
- 4.2 The USF Policy’s goals include making voice telephony and Internet access data services available and affordable to progressively greater proportions of Pakistan’s rural population.
- 4.3 The USF Policy’s objectives for 2015 include 95% coverage of the country’s population (and therefore access to service if desired). This RFA and similar USFCo initiatives are intended to meet these objectives by introducing service in defined USF Areas.
- 4.4 The USF Policy will guide the actions of USFCo in administering the Universal Service Fund. That administration includes the use of the USF Services and Subsidy Agreement, with compliance monitoring and penalties for non-performance, including forfeiture of bank guarantees. Technological features of the USF Policy include technological neutrality, an emphasis on shared access points, and mandated infrastructure sharing to facilitate multiple operators in the same area. Economic features include capping USF service prices at nationally available retail prices, and a “negative auction” RFA Process to use bidding competition among licensees to minimize the amount of any particular USF Subsidy, and to maximize overall benefits from the fund. Together, these features establish a USF regime to extend telecommunications services to rural locations in a sustainable manner consistent with fair competition.

5. USF Coverage Requirements

The geographic locations that are the subject of this RFA and related USF Subsidy (the “USF Areas”) are identified in detail in Schedule C of the USF Services and Subsidy Agreement enclosed as Annex 6. Applicants must demonstrate that the USF Networks they propose provide service coverage to all of the cities, towns, villages or Muzas identified in Schedule C of the USF Services and Subsidy Agreement as being mandatory for USF Network and USF Service coverage.

6. USF Service Requirements

The service requirements to be met by the successful Applicant selected pursuant to this RFA are identified in Schedules A and B of the USF Services and Subsidy Agreement enclosed as Annex 6.

7. USF Contributors and Eligibility

- 7.1 Persons whose Local Loop (“LL”) Wireless Local Loop (“WLL”), Long Distance and International (“LDI”) or Telecommunication Infrastructure Provider (“TIP”) Licence was issued after adoption of the Deregulation Policy (2003), and persons

whose mobile cellular licence was issued or renewed after adoption of the Mobile Cellular Policy (2004), (collectively, “USF Contributors”) have an obligation to contribute 1.5% of annual gross revenues to the Universal Service Fund, less inter-operator fees and related payments mandated by the PTA or Frequency Allocation Board (“FAB”).

7.2 Any other licensee who has had its licence issued, re-issued or amended to include Universal Service Fund contribution payment requirements will, on satisfaction of those requirements, be recognized as a USF Contributor as well.

7.3 Eligibility to participate in the RFA process is limited to USF Contributors under the Universal Service Fund Rules, 2006 (the “Rules”)².

7.4 Rule 24(12) sets out the following further restriction:

No single licensee may accumulate more than fifty per-cent of the total amount of USF subsidies awarded by the USF Company in multiple auctions. The period during which a licensee’s accumulation and proportion of USF subsidy amounts will be defined in guidelines or statements of auction procedures to be issued by the USF Company from time to time.

Detailed guidelines to Rule 24(12) are available at USF website www.usf.org.pk.

8. Tentative Time Schedule

8.1 The tentative timetable for the RFA events, beginning with publication of the pre-auction notice, is set out in Annex 8 of RFA.

9. Project Administration and Correspondence

Eligibility for the Provision of Goods, Works and Services in Projects Financed by the World Bank

Current Policy

In November 2003, the World Bank approved revisions to the Guidelines: Procurement under IBRD Loans and IDA Credits and Guidelines: Selection and Employment of Consultants by World Bank Borrowers. These guidelines, which became effective in May 2004 do not contain procurement restrictions based on nationality. As stated in paragraph 1.6 of the Guidelines, persons or entities from any country **are eligible to participate in Bank-financed procurement for all loans or credits for which the invitation to negotiate was issued after May 1, 2004.**

Exceptions to this are noted in paragraph 1.8 of the procurement guidelines.

According to these exceptions, persons or entities of a Country, or goods and services that have their origin in a Country may be excluded if:

Para 1.8 (a) (i): as a matter of law or official regulation, the Borrower's Country prohibits commercial relations with that Country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the supply of the Goods or Works required; or

Para 1.8 (a) (ii): by an Act of Compliance with a Decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that Country or any payments to persons or entities in that Country.

Additional Requirements

The Contractor and its sub-contractors shall have the nationality of an eligible country. It is considered that a Contractor or sub-contractor has the nationality of a country if he is a citizen or is constituted, incorporated or registered and operates in accordance with the rules and laws of this country.

All goods and services to be provided under the Contract and financed by the Bank shall have their origin in eligible countries. For the purposes of this clause, "origin" means the country where the goods were extracted, harvested, cultivated, produced, made, manufactured or processed, or, when affected by processing, manufacturing or mounting, become a new item commercially recognized as differing substantially from the basic features of its components.

The origin of goods and services is distinct from the nationality of a bidder or Contractor.

ARTICLE THIRTEEN - FORCE MAJEURE

13.01 Force Majeure

(a) If and to the extent that a Party's performance of any of its obligations pursuant to this Agreement is prevented, hindered or delayed by reason of a Force Majeure Event and such non-performance, hindrance or delay could not have been prevented by reasonable foresight or precautions, and cannot reasonably be circumvented through the use of alternate sources, work-around plans or other means, then the non-performing, hindered or delayed Party may give written notice (a "Force Majeure Notice") to the other Party.

(b) A Force Majeure Notice shall contain reasonable particulars of the Force Majeure Event in question and the effect of such Force Majeure Event as it relates to the obligations of the non-performing, hindered or delayed Party hereunder.

(e) Where the other Party has not issued a Force Majeure Certification in response to a Force Majeure Notice in accordance with Section 13.01(c), the non-performing, hindered or delayed Party may give a copy of the Force Majeure Notice to the Technical Auditor, provided that it notifies the other Party in writing that it has elected to do so.

(f) Within 10 Business Days of receipt of the Force Majeure Notice, the Technical Auditor will either:

(i) issue a Force Majeure Certification indicating to the Parties that a Force Majeure Event has occurred and whether a Technical Amendment to this Agreement is required in accordance with Section 13.02; or

(ii) indicate in writing to the Parties that a Force Majeure Event has not occurred, providing reasons for this conclusion.

(g) Where a Force Majeure Certification has been issued in response to the Force Majeure Notice of either Party, such non-performance, hindrance or delay, as applicable, of those obligations affected by the Force Majeure Event will not constitute a default hereunder by that Party for as long as such Force Majeure Event continues and such Party continues to use its reasonable commercial efforts to recommence performance whenever and to whatever extent possible without delay, including through the use of alternate sources, workaround plans or other means.

(h) For the purpose of this Agreement, “Force Majeure Event” means any of the following events beyond the control of the Parties:
