

S.No	Queries	Document Ref:	USF Response
1	As per schedule C, only mandatory mauza details are provided, and a separate tab has been added for blocks and settlements where the provided information is referred to as "Reference data of Additional Population Points". Please confirm whether we should consider only mandatory mauza for coverage/planning or both mandatory mauza and additional points? If additional points are deemed mandatory, then population data is needed for these points.	Schedule C of Draft SSA	Mandatory Mauzas of Schedule C are to be provided coverage. The separate tab provides population points with co-ordinates to help SPs identify population pockets around Mauzas and meet coverage target of 80% Mauza population. The naming convention of this tab is, name of mauza followed by suffix number.
