1	With respect to NG-BSD Abbotabad Lot, In Schedule C, population figures are provided for the mauzas only, but no such data is mentioned for the population points. Kindly clarify whether providing service to the mauzas alone is sufficient, or if coverage provision to the population points is also mandatory.	Schedule C of Draft SSA	The main mauza, with co-ordinates and population is provided for mandatory coverage. The additional population points are provided to help SP to view the overall population distribution in area, design network and place sites such that 80 percent of the target population of the mauza is covered.
