1	With refernce to OFC-UC-PB-LOT39V, villages are also marked on the KMZ and are mentioned in Schedule C to SSA. Do we need to plan connectivity of villages (including fiber and passive node) as well or should we plan connectivity of clusters only as it was required in previous Lots?	Schedule C of SSA	The Service Provider is required to ensure connectivity of all target villages listed in Schedule C, including fiber deployment and installation of nodes. The node at each village may be either passive or active, based on the Service Provider's design.
